For The Action List updates, please check back often!

Here is a list of clients whose inventions have received considerable action from manufacturers. We have successfully handled negotiations for some of our inventors, while others have elected to do their own negotiations with the manufacturers we contacted for them. This list is generated to give you an idea of the product lines that are getting positive attention.*

Please Note: *These are a few of the more active products that represent a cross section of many product lines. The fact that these products generated good interest does not mean that your product in the same line will generate the same interest. Every product is different -having various merits and sales possibilities. It is our hope that this list will give you an idea of some of our more successful and/or active products.*
